1. **Bundled Course Program** - Multiple qualifications in a related field can be bundled together, reducing the total study time by eliminating duplicated units of competency. This results in a tuition fee for the package that is lower than the total fee of the individual courses.
2. **Accelerated Childcare Program** - UPC offers an accelerated option for high-achieving students seeking faster progression through their childcare courses. In the accelerated program, students will study a number of units online alongside their normal classes. Consequently, accelerated students can attain their qualifications faster than regular students. The Certificate III and Diploma qualifications in the childcare package do not have duplicated units; therefore, the tuition fee remains the same as the total fee of the individual courses.
